hatrix

hatrix is a powerful cloud-based access control solution utilizing the industry renowned EntraPass security management software

KANTECH

From Tyco Security Products

Working with hattrix Managed Service Providers (MSPs), you can choose whether you want to outsource all or part of your security needs with a hosted or fully managed system.

hattrix

Hosted

An MSP manages your database and hardware in the cloud allowing you to administer EntraPass from a secure workstation or mobile device.

Managed

An MSP manages your account and also provides ongoing day-to-day support. If you want to change anything your MSP handles it all for you.

The intuitive, state-of-the-art EntraPass Web and EntraPass Go mobile applications work perfectly with hattrix and offer an unparalleled feature rich access control experience via PC, tablet or smart phone

EntraPass Go mobile app

EntraPass Go allows you to remotely control your security system from anywhere without being tied to a workstation. The easy-to-use mobile app for your smart device offers anytime, anywhere real-time management of common security tasks. Manage/create cards, lock/unlock doors, request reports, view video and more.

Experience EntraPass Go. Download it for free on the Google or Apple app stores.

EntraPass Web

The intuitive EntraPass Web for your PC delivers remote and convenient real-time access to your system from the Web. Receive automated updates and security alerts as well as perform a host of functions simply, including locking/unlocking doors, managing cards and schedules, requesting reports, viewing video and so much more.

See EntraPass Web for yourself, visit the Kantech Youtube page to view our videos.
